

POLYPROPYLENE MULTIFILAMENT YARNS

PROVEN PERFORMANCE TRUSTED QUALITY

High-performance polypropylene yarns engineered for durability, consistency and industrial reliability.

High performance

- High tenacity up to 8 g/den
- UV resistance & color fastness
- Long service life

Functional options

- Flame retardant
- Antibacterial
- Low shrinkage

Versatility

- Flat, twisted & intermingled
- Air-jet textured (COSLAN)
- Wide application range

Technical range

- 400–6000 den
- Multiple constructions available
- Designed for industrial processing

Color & customization

- 500+ colors
- Batch consistency
- Custom developments
